Content and structure area	
Scope and content	<p>Series contains subject files created and maintained during Qureshi's career in the World Bank Group (WBG). Although the files are most voluminous for the period during which Qureshi was the Bank's Senior Vice President for Operations, 1987 to 1991, the series also includes records accumulated while Qureshi served in his various capacities at the international Finance Corporation (IFC), through his tenure as Senior Vice President of Finance, 1981 to 1987. Subject files were created beginning in 1972 apart from a few reproductions of earlier publications and documents within the files.</p> <p>Records include outgoing memoranda, letters, draft loan issuances, minutes, copies of Qureshi's speeches and articles, press releases and clippings, Qureshi's handwritten notes and comments, and occasionally externally-authored papers and reports. Several of the files contain Board papers presented to Executive Directors regarding a given topic.</p> <p>Subject file topics include: debt; debt reduction; lending programs; Bank capital increases; co-financing; International Development Association (IDA) replenishments; overdue service payments; economic and social sectors; development of operations policy; Operations Evaluation Department (OED) project performance results; technical assistance; relations with China; relations with the Palestinian Liberation Front; currency pooling; special drawing rights; the Persian Gulf crisis; private sector development; women in development; and cooperation with the International Monetary Fund (IMF) and the United Nations (UN). Administrative topics include: budget issues, processes, and guidelines; Operations staffing, budget, and business planning; IT support; and managers' retreats.</p>
