Scope and content

This series consists of ten files containing papers that Alexander Nowicki compiled primarily while he was a senior economist in the Projects Department of the South Asia Regional Office and later as Director of the OED's Policy-Based Lending, Industry, Public Utilities and Urban Sectors Division (OEDD2). Included are Nowicki's own October 19, 1967 paper, Academic and Private Research on Economic Problems of Developing Countries - Survey of Work and Thinking in France, and a copy of a lecture, General Issues and Actual Problems of Central Planning, that he delivered at a September 1986 seminar organized by the Brazilian Ministry of Planning. Other documents include copies of papers presented at the 1985 Manila Conference on Privatization Policies, Methods, and Procedures; two papers on industrial restructuring and on competition policies for industrializing countries that were prepared for discussion at Bank Board seminars in 1989; a December 1981 Bank compilation of basic data on population; copies of a March 1983 country program paper for Pakistan and a draft January 20, 1984 report regarding recent economic development in Pakistan; and a copy of a Handbook on Balance of Payments that was presented at the World Bank Seminar on Debt and Developing Countries, April 18-20, 1984.
